

# Herdsure® Cattle Health Improvement Service 2014/15 Price List

## ANNUAL SERVICE SUBSCRIPTION PRICES

Diseases subscribed	Herds of less than 200	Herds of 200 and above
1	£30	£40
2	£56	£76
3	£78	£108
4	£96	£136
5	£110	£160
6	£120	£180

Herd size is based on the number of adult cattle (>30 months) currently registered on CTS. Further information to confirm herd size may be requested at the time of registration. Subscriptions are payable to AHVLA via the veterinary practitioner. Multi-disease discounts applied at annual subscription renewal.

### Herdsure® subscription includes:

- **Enrolment with Herdsure® Management System** - testing prompts, submission forms, recording of results and disease management protocols.
- **Comprehensive Manual** - information on diseases, biosecurity principles and herd health management.
- **Herdsure® Helpline** - providing access for support and guidance.

### Disease protocols under Herdsure®

Include bovine viral diarrhoea (BVD), Johne's disease, liver fluke, infectious bovine rhinotracheitis (IBR), leptospirosis and neosporosis.

Disease	Test Code	Herdsure® Prices (£)	Test Description	Sample Required	Amount
<b>BVD</b>	TC0390	3.35	BVD antibody ELISA	Heparin blood/green top	2ml (min)
	TC0123	5.20	BVD antibody ELISA in bulk milk	Milk	20ml (min)
	TC0772	4.95	Ems ELISA	Heparin blood/green top	5ml
	TC0709	28.65	BVD PCR in bulk milk samples (up to 300 contributors)	Fresh milk	20-25ml
	TC0758	28.60	BVD PCR in pooled blood - result only	Heparin blood/green top	7ml from each of the animals in the pool (max 10)
	TC0655	17.75	BVD PCR - individual blood sample	Heparin blood/green top	5ml (min)
	TC0872	3.75	BVD antigen ELISA for ear notch tissue samples	1 x 2-3mm ear notch collected at tagging	2-3mm
<b>Johne's disease</b>	TC0366	4.50	Mycobacterium paratuberculosis antibody ELISA	Clotted blood/red top	2ml (min)
	TC0866	5.25	Mycobacterium paratuberculosis antibody ELISA	Individual milk with preservative	10ml (min)
	TC0713	41.70	Mycobacterium paratuberculosis liquid culture	Faeces	5g (min)
	TC0693	29.30	Mycobacterium paratuberculosis PCR	Faeces	5g
<b>Liver fluke</b>	TC0692	6.70	Fasciola hepatica antibody ELISA in bulk milk	Bulk milk with preservative	20ml
	TC0678	6.45	Fasciola hepatica antibody ELISA in serum	Clotted blood/red top	2ml (min)
	TC0689	39.45	Fluke egg	Faeces	10 x 5g (min) individual faecal samples from a single management group
<b>IBR</b>	TC0124	6.20	ELISA test for IBR antibodies in bulk milk	Milk	10ml (min)
	TC0675	4.00	cELISA test for IBR antibodies in individual serum	Clotted blood/red top	7ml
	TC0680	7.40	ELISA test for IBR antibodies in individual serum for animals vaccinated with gE deleted marker vaccine	Clotted blood/red top	2ml
<b>Leptosporosis</b>	TC0125	5.20	Antibody ELISA in bulk milk	Milk	20ml
	TC0638	5.40	Antibody ELISA in serum - screening test	Clotted blood/red top	2ml
<b>Neosporosis</b>	TC0175	5.30	Neospora caninum antibody ELISA	Clotted blood/red top	2ml

The cost of the tests will be invoiced to the farmer's veterinary practitioner.
