

## APHA Briefing Note 12/19

### Temporary Unavailability of Official Control Qualifications Training for Official Veterinarians in the Event of a No-Deal EU Exit.

#### Purpose

1. To inform Official Veterinarians (OVs) that in the event of the UK leaving the EU on 12 April 2019 without a deal, there will be a requirement to update several of the OCQ(V) courses.
2. Updated courses have been prepared in readiness for Day 1 of EU Exit and will be implemented if required. Access to all OCQ(V) courses will be unavailable for a period of time whilst the changeover to the updated courses is being implemented.
3. To reassure OVs who have completed any of the affected courses prior to the update that they are not required to complete the course again or resit the exam. However, they will have access to the updated course material for reference.

#### Background

4. In preparation for the possibility that the UK may leave the EU without a deal on 12 April, amended versions of several of the OCQ(V) training courses have been developed which reflect any resulting new requirements. This is particularly relevant, though not exclusively, to the export qualifications.
5. These updated courses are ready to be implemented and Improve International Ltd. are preparing to introduce them ready for 12 April, should the need arise.

6. Whilst every effort is being made to minimise disruption during the transition to the updated courses, there will be a period of time when all the courses will be unavailable to access.
7. In the event that a no-deal exit is confirmed, the learning platform (Moodle) will not be available from 02:00 on Thursday 11 April until 09.00 on Friday 12 April.
8. OVs will have continued access to the website ([www.improve-ov.com](http://www.improve-ov.com)) during this time and can continue to enrol on the courses. Enrolment will not be affected by the downtime.
9. Courses that will be updated are:
  - OCQ(V) - EX (Exports General)
  - OCQ(V) - EXr (Exports General revalidation)
  - OCQ(V) - SX (Small Animal Exports)
  - OCQ(V) - SXr (Small Animal Exports revalidation)
  - OCQ(V) - CA (Companion Animals)
  - OCQ(V) - CAr (Companion Animals revalidation)
  - OCQ(V) - AX (Avian Exports)
  - OCQ(V) - AXr (Avian Exports revalidation)
  - OCQ(V) - EQ (Equine Exports)
  - OCQ(V) - EQr (Equine Exports revalidation)
  - OCQ(V) - GX (Germinal Products Exports)
  - OCQ(V) - GXr (Germinal Products Exports revalidation)
  - OCQ(V) - PX (Product Exports)
  - OCQ(V) - PXr (Product Exports revalidation)
  - OCQ(V) - UX (Ungulate Exports)
  - OCQ(V) - UXr (Ungulate Exports revalidation)
10. If an affected course is started but not completed before the downtime, it may be necessary for OVs to repeat some of the sections in the updated course before they can proceed through to the online examination.

11. OVs are therefore advised where possible to complete all affected courses by 02:00 on 11 April if they have already started them or wait until 12 April to start an updated course. This does not include completion of case logs and certification exercises, which will not be affected by the update. OVs will be able to complete case logs/certification exercises at any point up to the revalidation deadline.
12. The following courses will not be affected by the change but OVs still will not be able to access them while the updates are being completed:
- OCQ(V) - ES (Essential Skills)
  - OCQ(V) - TT (Tuberculin Testing)
  - OCQ(V) - TTr (Tuberculin Testing revalidation)
  - OCQ(V) - Cymorth - TB
  - OCQ(V) - SS (Statutory Surveillance)
  - OCQ(V) - SSr (Statutory Surveillance revalidation)
13. OVs who have completed any of the affected courses prior to 02:00 on 11 April will have access to the updated course material from 09:00 on 12 April but are not required to complete the course again or resit the exam.

### **Further Information**

14. If you have any queries please contact the APHA OV Team at [CSCOneHealthOVTeam@apha.gov.uk](mailto:CSCOneHealthOVTeam@apha.gov.uk) or Improve International at [enquiries@improve-ov.com](mailto:enquiries@improve-ov.com)
