Sample photos of acceptable and unacceptable ID check images

Unacceptable photos

Reason: no identifying features of the animals are visible in the pictures.

Reason: multiple animals are shown in the same image

Reason: insufficient distinguishable features are visible in the picture

Reason: the microchip number in the photo is not readable

Acceptable photos for ID check

Reason:

- features of the animals are clearly shown
- microchip numbers are easily readable
- each image contains only one animal and one microchip scanner.
