# Tuberculin Test Chart

Must be returned to APHA with TN52B within the timescale required (details on TN52B)

**Notes:**
- The number of animals not tested must be entered at question 5(b) of Form TN52B
- The correct date of birth or age of each animal should be shown separately. This is particularly important for reactor and IR animals.
- Where added animals and inconclusive reactors are tested at this test they must be clearly identified in the Remarks column. It should also be stated whether they are in isolation.
- For description of reaction use the following abbreviations:
  - S.O. = Some oedema
  - C. = Circumscribed

---

**Official Animal Identity** | **Species** | **Date of Birth or Age (Yrs/Mths)** | **Sex** | **Group** | **Skin Measurements m.m** | **Description of reaction** | **Reaction Result** | **Overall result Reactor or IR** | **Remarks including description of lesions of skin tuberculosis and record of clinical evidence of Johne’s disease, etc.**
