

Tuberculin Test Chart

Must be returned to APHA with TN52B within the timescale required (details on TN52B)

THIS FORM IS ALSO AVAILABLE IN WELSH

Notes:

- The number of animals not tested must be entered at question 5(b) of Form TN52B
- The correct date of birth or age of each animal should be shown separately. This is particularly important for reactor and IR animals
- Where added animals and inconclusive reactors are tested at this test they must be clearly identified in the Remarks column. It should also be stated whether they are in isolation
- For description of reaction use the following abbreviations:
 S.O. = Some oedema C. = Circumscribed

Herd Reference Number
